## Project objective:

To develop a comprehensive credit card weekly dashboard that provides real-time insights into key performance metrics and trends, enabling stakeholders to monitor and analyze credit card operations effectively.

## Data from SQL:

The weekly credit card dataset consists of two CSV files: one containing transaction and the other with customer details, covering data until 24/12/2023.

First, a table schema was created in PostgreSQL, followed by the import of data from the CSV files into SQL. This dataset was then imported into Power BI for dashboard preparation and insight generation.

For the next week's data (31/12/2024), the new CSV files were merged with the existing dataset in SQL. After merging, a simple refresh of the Power BI dashboard provided the updated insights seamlessly.

## Data processing and DAX:

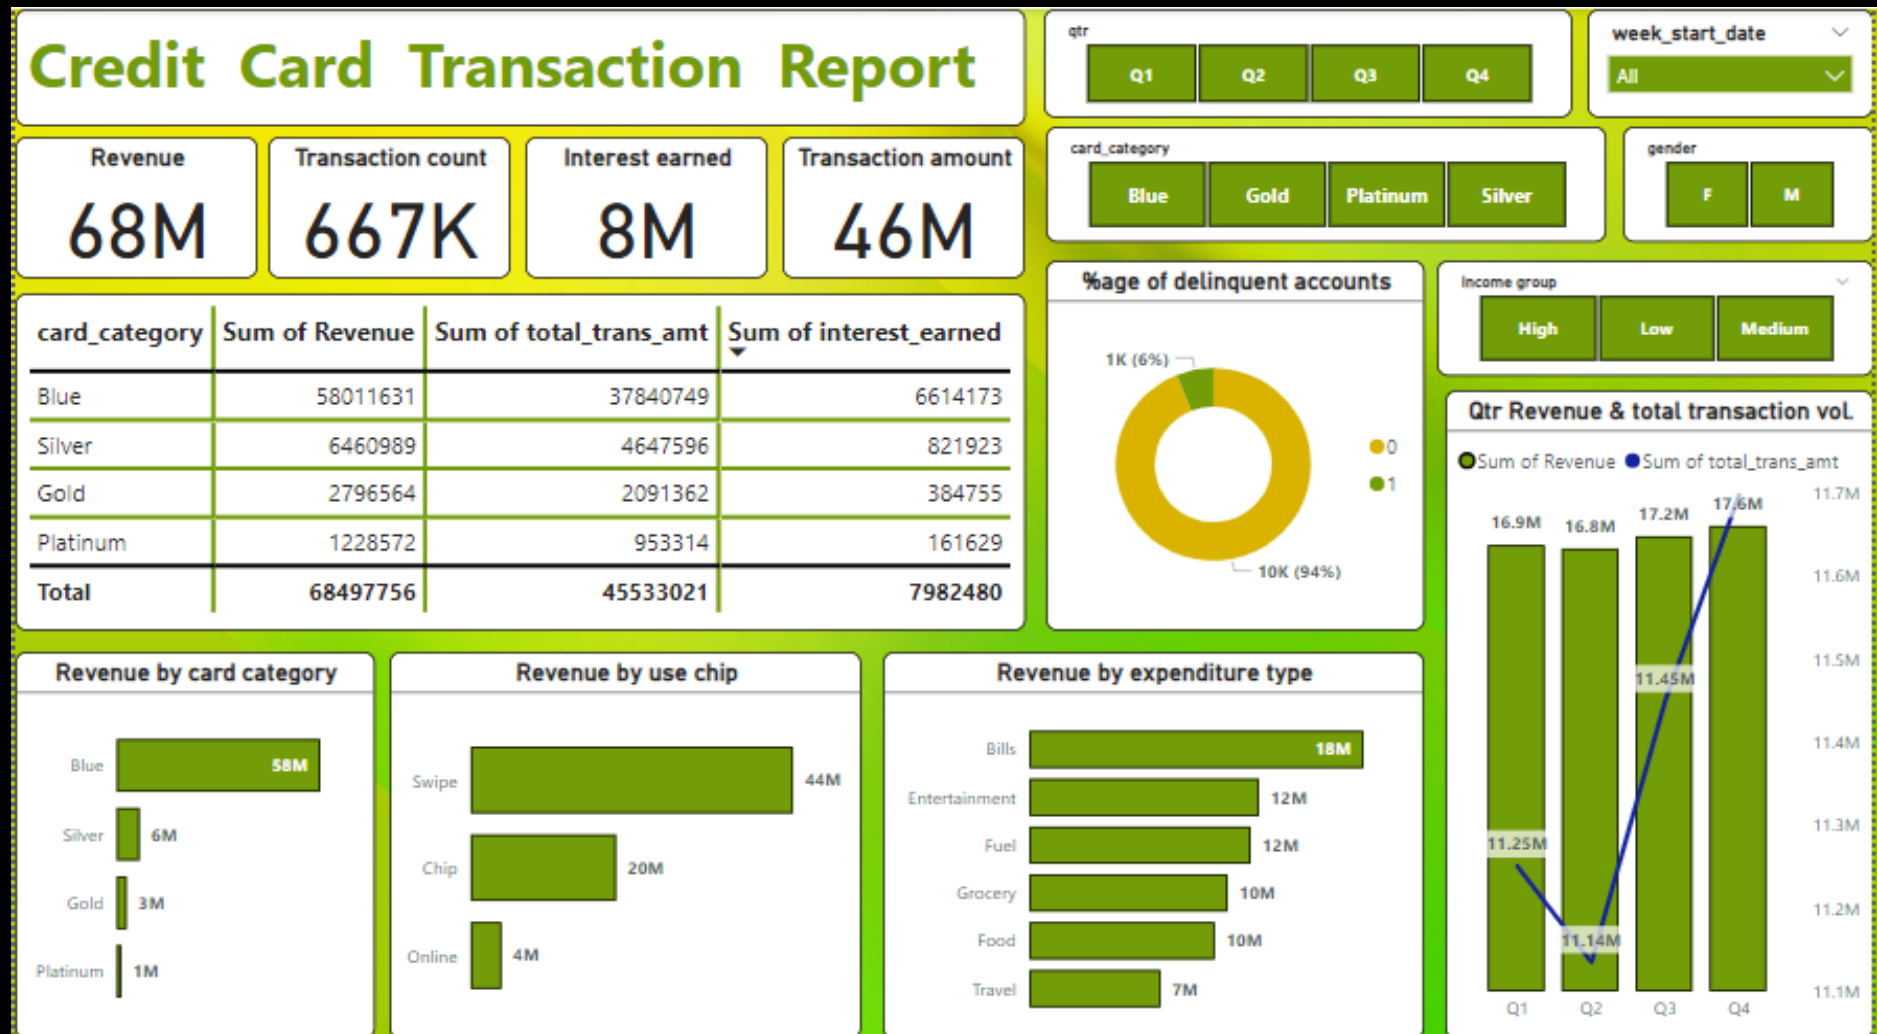

```
Revenue = 'public cc_detail'[annual_fees] + 'public cc_detail'[total_trans_amt] + 'public cc_detail'[total_revolving_bal] + 'public cc_detail'[interest_earned]
```

```
Income group = SWITCH(
    TRUE(),
    'public cust_detail'[income] < 35000, "Low",
    'public cust_detail'[income] >= 35000 && 'public cust_detail'[income] < 70000, "Medium",
    'public cust_detail'[income] >= 70000, "High",
    "NA"
)
```

```
Age group = SWITCH(
    TRUE(),
    'public cust_detail'[customer_age] < 30, "20-30",
    'public cust_detail'[customer_age] >= 30 && 'public cust_detail'[customer_age] < 40, "30-40",
    'public cust_detail'[customer_age] >= 40 && 'public cust_detail'[customer_age] < 50, "40-50",
    'public cust_detail'[customer_age] >= 50 && 'public cust_detail'[customer_age] < 60, "50-60",
    'public cust_detail'[customer_age] >= 60, "60+",
    "NA"
)
```

```
Current week revenue = CALCULATE(
    SUM('public cc_detail'[Revenue]),
    FILTER(ALL('public cc_detail'),
        'public cc_detail'[Week no.] = MAX('public cc_detail'[Week no.]
    )))
```

## Insights:

### WoW change (current week & previous week comparision):

- Revenue increased by **26.64%**
- Transaction amount increased by **35.04%**
- Transaction count increased by **3.39%**
- Customer count increased by **12.80%**

Week no.	Prev week revenue	Current week revenue	WoW revenue
49	12,33,815.60	1197214.37	-2.97%
50	11,97,214.37	1258757.11	5.14%
51	12,58,757.11	1296939.10	3.03%
52	12,96,939.10	1128288.43	-13.00%
53	11,28,288.43	1428842.58	26.64%

Week no.	prev weel txn amt	current week txn amt	WoW transaction
49	808623	791352	-2.14%
50	791352	824791	4.23%
51	824791	865275	4.91%
52	865275	748677	-13.48%
53	748677	1011008	35.04%

### YoY overview:

- Total revenue is 68M
- Total interest earned is 8M
- Total transaction amount is 46M
- Male are contributing more in revenue than the female
- Blue and Silver CC are contributing 94% of the total revenue
- %age of activation of CC within 30 days is 57%
- Overall delinquent rate is 6.06%
- Clients in the self-employed job category have the highest delinquency rate, reaching 1.66%

delinquent_acc	Blue-collar	Businessman	Govt	Retirees	Selfemployed	White-collar	Total
